

Kopint Foundation for Economics Research

Kopint Foundation for Economics Research was established in April 1991 and has operated as a public benefit purpose entity since November 2000.

Kopint Foundation's mission:

Funding applied economics research in the field of Hungarian and international economies

Activities of the Foundation:

- Funding research projects focused on topics in economics and social science
- Areas of research: foreign trade, investment, monetary policy, regional politics, European integration, cross-border cooperation, as well as present-day questions of Hungarian economic policy
- Participating in domestic and international research projects
- Publishing the journal "Külgazdaság"
- Organising domestic and international conferences
- Running KOPINT-DATORG Secondary School for Economic Development
- Providing grants and prizes in the area of economics
- Operating an apprenticeship scheme for young people studying economics
